

BETTER BUILDINGS

Reduces construction timelines and enchances quality.

BETTER DEVELOPMENTS

Deliver more units at the same fixed cost, increasing marginal returns.

BETTER COMMUNITIES

Greater density fosters vibrant communities and strengthens urban identity.

ELE VEN TEN

Systems

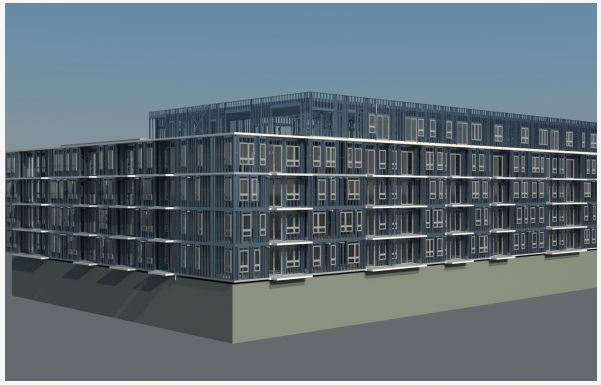
Cold Form Steel
Mid-Rise Structures

PERFECT FOR

- Multi-Family
- Student Housing
- Hospitality
- Senior Living
- Type I-II non-combustible buildings
- Most economical at 180’ max building height, and 12 occupied stories

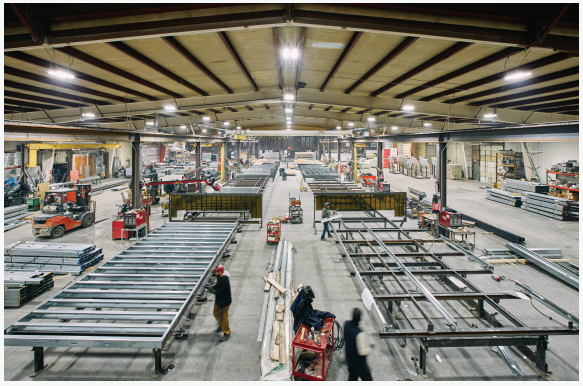
DESIGN & ENGINEERING

- Full building design & specialty engineering services
- Specialists in cold-formed steel building design
- Optimization & customization to meet the needs of every project
- PE & SE licenses in many states
- REVIT modeling ready for BIM coordination



FLOOR ASSEMBLIES

- Composite metal deck
- Cold-formed steel trusses
- Cold-formed steel joists
- Steel bar joists
- Hollow core
- Cross laminated timber



MANUFACTURING

- Load bearing wall panels
- Exterior wall panels including: load bearing, balloon framed & platform framed
- Weather barrier factory installed in climate controlled environment
- Windows & doors installed
- Masonry shelf integrated into panelized walls
- Structural steel fabrication
